The course shows students how the world has moved from primitive communication to the integrated multi-media situation we are in today. Concentration is on the fields of journalism, telecommunications, broadcasting, and computing. Emphasis is placed on the leaders of the areas and the political and cultural surroundings that encouraged or discouraged growth of the industry. It is true that technology is a driving force of this industry, but it has been the individual people (characters) impelled by discovery, acceptance and marketability of that technology who have taken the next step to improve communication. The Journalism field started with Gutenberg and early added Ben Franklin, later it got a little yellow with Hearst and Pulitzer. I think Henry Luce started the business of media integration, but Rupert Murdoch certainly keeps it going. The first practical use of electricity was found by Samuel Morse and his telegraph. Bell invented the telephone, or was it Meucci? Theodore Vail invented the Bell System. Broadcasting started with Marconis invention, or was it Tesla? David Sarnoff and William Paley made the medium practical and characters like Edwin R. Morrow, Walter Cronkite and even Oprah Winfrey gave it credibility. Certainly Charles Babbage and Ada Lovelace had something to do with the start of computers, but later scientists Vannevar bush and Jon von Neumann added the electronics. Then UNIVAC convinced Thomas Watson Junior that IBM better start making them. Jobs and Wozniac started the personal computer business, but Bill Gates created the software to make them run. Tim Berners-Lee hooked those computers to a network and then Amazon, eBay, and Google found a way to make money using the result. This book is the story of these people and companies. <u>Founder of Microsoft</u> ABC-CLIO ESSAY: The focus of this essay is on Bill Gates as a creative, gifted and talented person (business & entrepreneurship). An easy and very interesting read. SEATTLE - If you spend time with the Gates family it is most probable that someone will mention the "water incident". The future software guru was a headstrong 12-year-old and was having a particularly nasty argument with his mother at the dinner table. His father lost his cool and threw a glass of cold water in the boy's face. The young boy snapped back with something like this: "Hey thanks for the shower!" (Guth, 2009) Behind the Bill Gates, a success story, is the other William Gates (Sr.), his father. It is the story of his father about the young Gates junior's early years and the raising of Bill (Jr.) that generates interest by almost everyone. Questions like: 'How did he grow up?'; 'What was his life like as a child in the Gates household?', and 'What was he like in senior high school?' In this case study, I will look primarily at "Raising the young Gates" and I will endeavor to identify patterns and traits of giftedness, talent, and creativity which could be linked to the work of Renzulli (1986), Simonton (2000), Sternberg (2006), and Csikszentmihalyi (1999a). In the second section, I will look at some influences, time frames, historical, political, economic and social events that shaped the wealthy and very successful Bill Gates (Jr.) to become one of the wealthiest men and most influential men in the world Executive Summary This case study assesses, analyses, and discusses the prosperous life of the entrepreneur Bill Gates (Founder of Microsoft software) as an intelligent, gifted and talented person. The work of Simonton (2000), Sternberg (2006), Renzulli (1986) Csikszentmihalyi (1999a), on talented and gifted persons, shows that Bill Gates fits into three of the four categories outlined by Riley et al. (2004) Ministry of Education (New Zealand), namely: 1. Intellectual/Academic refers to students with exceptional abilities in one or more of the learning areas (i.e., English, the arts, health and physical education, learning languages, mathematics and statistics, science, social sciences, and technology). 2. Creativity refers to students with general creative abilities as evidenced in their abilities to problem-find and problem-solve, and their innovative thinking and productivity. 3. Social/Leadership refers to students with interpersonal and intra-personal abilities and qualities, which enable them to act in leadership roles. A Biography Five House Publishing Discusses the life of the man who founded the computer software company known as Microsoft Corporation. <u>Think Smart, Be Fearless</u> ABDO The present book gives a detailed narrative of the life of Bill Gates, chairman of Microsoft Corporation, the worldwide leader in software services and solutions that help people and business organisations realize their full potential. It is an account of his journey of life and the way he changed the	times for the world by recognising the value of computer as a tool on every office desktop and in every home. Under Bill Gates' leadership, Microsoft's mission was to continually advance and improve software technology and to make it easier, more cost-effective and more user-friendly. In addition to his love for computers and software, Bill Gates founded Corbis, a comprehensive digital archive of art and photography from public and private collections around the globe. Apart from Bill Gates' genius at computer software, he and his wife are known for their \$28.8 worth Bill Gates' Foundation to support philanthropic initiatives in the areas of global health and learning. A must read biography for youth to derive inspiration from this living legend. <u>How to Find Personal Information Online</u> Bellwether Media In the United States, social class ranks with gender, race, and ethnicity in determining the values, activities, political behavior, and life chances of individuals. Bill Gates is an American business magnate, investor, author, philanthropist, humanitarian, and principal founder of Microsoft Corporation. During his career at Microsoft, Gates held the positions of chairman, CEO and chief software architect, while also being the largest individual shareholder until May 2014. In 1975, Gates and Paul Allen launched Microsoft, which became the world's largest PC software company. Gates led the company as chief

executive officer until stepping down in January 2000, but he remained as chairman and created the position of chief software architect for himself. In June 2006, Gates announced that he would be transitioning from full-time work at Microsoft to part-time work and full-time work at the Bill & Melinda Gates Foundation, which was established in 2000. He gradually transferred his duties to Ray Ozzie and Craig Mundie. He stepped down as chairman of Microsoft in February 2014 and assumed a new post as technology adviser to support the newly appointed CEO Satya Nadella. Gates is one of the best-known entrepreneurs of the personal computer revolution. He has been criticized for his business tactics, which have been considered anti-competitive. This opinion has been upheld by numerous court rulings. Since 1987, Gates has been included in the Forbes list of the world's wealthiest people, an index of the wealthiest documented individuals, excluding and ranking against those with wealth that is not able to be completely ascertained. From 1995 to 2017, he held the Forbes title of the richest person in the world all but four of those years, and held it consistently from March 2014 - July 2017, with an estimated net worth of US\$89.9 billion as of October 2017. However, on July 27, 2017, and since October 27, 2017, he has been surpassed by Amazon founder and CEO Jeff Bezos, who had an estimated net worth of US\$90.6 billion at the time. Later in his career and since leaving Microsoft, Gates pursued a number of philanthropic endeavors. He donated large amounts of money to various charitable organizations and scientific research programs through the Bill & Melinda Gates Foundation. In 2009, Gates and Warren Buffett founded The Giving Pledge, whereby they and other billionaires pledge to give at least half of their wealth to philanthropy. The foundation works to save lives and improve global health, and is working with Rotary International to eliminate polio. As of February 17, 2018, Gates had a net worth of \$91.7 billion, making him the second-richest person in the world, behind Bezos.
