The Ancient Monuments and Archaeological Sites and Remains Act, 1958 Springer
Europe's place in history is re-assessed in this first comprehensive history of the ancient world, centering on the Indian Ocean and its role in pre-modern globalization. Philippe Beaujard presents an ambitious and comprehensive global history of the Indian Ocean world, from the earliest state formations to 1500 CE. Supported by a wealth of empirical data, full color maps, plates, and figures, he shows how Asia and Africa dominated the economic and cultural landscape and the flow of ideas in the pre-modern world. This led to a trans-regional division of labor and an Afro-Eurasian world economy. Beaujard questions the origins of capitalism and hints at how this world-system may evolve in the future. The result is a reorienting of world history, taking the Indian Ocean, rather than Europe, as the point of departure. Volume II provides in-depth coverage of the period from the seventh century CE to the fifteenth century CE.

Asia in Flanders Fields Univ of California Press

Slaughter in battle was once seen as a legitimate way to settle disputes. When pitched battles ceased to exist, the law of victory gave way to the rule of unbridled force. Whitman explains why ritualized violence was more effective in ending carnage, and why humanitarian laws that view war as evil have led to longer, more barbaric conflicts.

Rediscovering Sundarban : the Mangrove Beauty of Bangladesh Amnesty International USA

Focusing on the challenges faced by the police in Delhi in its day-to-day functioning due to over-urbanization, this volume looks at the changes brought about to counter the problems of crime, law and order, traffic and terrorism, among other issues.

Technological Innovation, Economic Constraints, and Strategic Implications Springer

A comprehensive Book on Railway Aptitude & Psychological Tests. This book is very useful for the Centralised Recruitment of Assistant Station Master, Traffic Assistant, Assistant LocoPilot, Diesel/Electrical, AssistantPilot, Motorman, Station Controller, Train Operator, Rail Conductor etc.

Why the Rest Keeps Beating the West Pen and Sword Military

In the kingdom(s) of the West, something is rotten. Collectively, the countries of NATO are responsible for almost two thirds of global military spending. In terms of military technology, particularly electronics, communications and logistics, they have left the rest so far behind that it is no contest. Yet ever since the Korean War ended in 1953, almost every time they went abroad and

fought non-Westerners they were defeated and ended up by having to withdraw. What went wrong? How did the ferocious soldiers who, between the discovery of America in 1492 and the outbreak of World War I in 1914, brought practically the entire world under their control, turn into pussycats? The present study, unique of its kind, provides the answers. Either do what has to be done, it suggests, or go under"--Back cover

Satb ABC-CLIO

Counterterrorism consultant Marc Sageman examines the history and theory of political violence in his comprehensive new book. Seeking patterns across numerous key case studies, Turning to Political Violence offers a paradigm-shifting perspective that yields stark new implications for how liberal democracies should respond to terrorism.

Ministers' Misconduct Springer Nature

In over sixty articles and country reports, *The Indigenous World 2016* provides a comprehensive update on the current situation of indigenous peoples' causes, their human rights, and reports on the most important developments in international processes of relevance to indigenous peoples during 2015. It is an indispensable guide to issues and developments that have impacted indigenous peoples worldwide. Indigenous and non-indigenous scholars and activists write the articles contained in *The Indigenous World*. It is edited and produced by the International Work Group for Indigenous Affairs.

The Worlds of the Indian Ocean Amnesty International Report 2017/2018The State of the World's Human Rights

The surprise Chinese invasion of Vietnam in 1979 shocked the international community. The two communist nations had seemed firm political and cultural allies, but the twenty-nine-day border war imposed heavy casualties, ruined urban and agricultural infrastructure, leveled three Vietnamese cities, and catalyzed a decadelong conflict. In this groundbreaking book, Xiaoming Zhang traces the roots of the conflict to the historic relationship between the peoples of China and Vietnam, the ongoing Sino-Soviet dispute, and Chinese leader Deng Xiaoping's desire to modernize his country. Deng's perceptions of the Soviet Union, combined with his plans for economic and military reform, shaped China's strategic vision. Drawing on newly declassified Chinese documents and memoirs by senior military and civilian figures, Zhang takes readers into the heart of Beijing's decision-making process and illustrates the war's importance for understanding the modern Chinese military, as well as China's role in the Asian-Pacific world today.

India and Pakistan UNC Press Books

In a democratic society, police are expected to be accountable to the people they serve, upholding the rights of citizens and following due process. In India, however, political pressure in the competitive electoral arena forces the police to adopt questionable means and dubious strategies. As a hierarchical bureaucratic organization, disciplined in a military tradition and schooled in colonial traditions of deference to authority figures, India's police personnel have effectively alienated the very people they are supposed to serve and protect. In response to the overwhelmingly bleak pessimism of researchers and analysts scrutinizing India's police force, *The New Khaki: The Evolving Nature of Policing in India* highlights those unobtrusive and indirect paths toward effective transformation in spite of politicians and bureaucrats. Analyzing the obstacles to reform, the book argues forcefully and systematically to present areas of potential innovation and successful case studies. Focusing on practical and actionable options, the book examines how the use of new technology, the judiciary, and other creative administrative mechanisms can give determined police leaders the methods to change the policing system and its practices. It also provides strong evidence for the role of research and scholarship in transforming the police organization, offering illustrative examples and creative responses to endemic problems. The case studies presented here suggest that even when the powerful sections of society and those who control the police are not ready to bring changes, imaginative police leadership can find creative means to transform their organization to serve the people. *The New Khaki: The Evolving Nature of Policing in India* is a must-read for all those who are concerned about policing and interested in its improvement for a better world.

Amnesty International Report Delhi : Vikas Publishing House

The First World War brought peoples from five continents to support the British and French Allies on the Western Front. Many were from colonial territories in the British and French empires, and the largest contingents were Indians and Chinese - some 140,000. It is a story of the encounter with the European 'other', including the civilian European local populations, often marred by racism, discrimination and xenophobia both inside and outside the military command, but also lightened by moving and enduring 'human' social relationships. The vital contribution to the Allies and the huge sacrifices involved were scarcely recognised at the Paris Peace Conference in 1918 or the post-war victory celebrations and this led to resentment - see huge media coverage in 2021. The effect of the European 'other' experience enhanced Asian political awareness and self-confidence, and stimulated anti-imperialism and proto-nationalism. This is a vivid and original contribution to imperial decline from the First World War. and the originality of the work is enhanced by rare sources culled from original documents and 'local' European fieldwork - in French, German and Flemish.

Amnesty International Report 2017/2018 CRC Press

Rebellion, insurgency, civil war-conflict within a society is customarily treated as a matter of domestic politics and analysts generally focus their attention on local causes. Yet fighting between

governments and opposition groups is rarely confined to the domestic arena. "Internal" wars often spill across national boundaries, rebel organizations frequently find sanctuaries in neighboring countries, and insurgencies give rise to disputes between states. In *Rebels without Borders*, which will appeal to students of international and civil war and those developing policies to contain the regional diffusion of conflict, Idean Salehyan examines transnational rebel organizations in civil conflicts, utilizing cross-national datasets as well as in-depth case studies. He shows how external Contra bases in Honduras and Costa Rica facilitated the Nicaraguan civil war and how the Rwandan civil war spilled over into the Democratic Republic of the Congo, fostering a regional war. He also looks at other cross-border insurgencies, such as those of the Kurdish PKK and Taliban fighters in Pakistan. Salehyan reveals that external sanctuaries feature in the political history of more than half of the world's armed insurgencies since 1945, and are also important in fostering state-to-state conflicts. Rebels who are unable to challenge the state on its own turf look for mobilization opportunities abroad. Neighboring states that are too weak to prevent rebel access, states that wish to foster instability in their rivals, and large refugee diasporas provide important opportunities for insurgent groups to establish external bases. Such sanctuaries complicate intelligence gathering, counterinsurgency operations, and efforts at peacemaking. States that host rebels intrude into negotiations between governments and opposition movements and can block progress toward peace when they pursue their own agendas.

Understanding Victory: Naval Operations from Trafalgar to the Falklands Amnesty International Report

This volume explores the complex interrelation between risk, identity and conflict and focuses specifically on ethnicity, culture, religion and gender as modes of identity that are often associated with conflict in the contemporary world. It draws on theoretical perspectives as well as pays special attention to analysis of diverse case studies from Africa, Middle East, Europe, East and Southeast Asia and Latin America. Using various analytical tools and methodologies, it provides unique narratives of local and regional social risk factors and security complexities. The relationship between risk and security is multidimensional and perpetually changing, and lends itself to multiple interpretations. This publication provides a new ground for theoretical and policy debates to unlock innovative understanding of risk through analyses of identity as a significant factor in conflict in the world today. At the same time, it explores ways to address such conflicts in a more people-centered, empowering and sustainable way.

The Statesman's Year-Book Createspace Independent Publishing Platform

This book analyzes the rise of China's naval power and its possible strategic consequences from a wide variety of perspectives - technological, economic, and geostrategic - while employing a historical-comparative approach throughout. Since naval development requires huge financial resources and mostly takes place within the context of transnational industrial partnerships, this study also consciously adopts an industry perspective. The systemic problems involved in warship production and the associated material, financial, technological, and political requirements currently remain overlooked aspects in the case of China. Drawing on first-hand working experience in the naval shipbuilding industry, the author provides transparent criteria for the evaluation of different naval technologies' strategic value, which other researchers can draw upon as a basis for further

research in such diverse fields as International Security Studies, Naval Warfare Studies, Chinese Studies, and International Relations.

Pussycats OUP India

Provides an authoritative, accessible primer on what is potentially the world's most dangerous crisis, concisely distilling sixty-three years of complex history, tracing the roots of the relationship between India and Pakistan, explaining the many attempts to resolve their disputes, and assessing the dominant political leaders -- from cover.

Naval Operations from Trafalgar to the Falklands Ramesh Publishing House

Given that the war on terror is currently being fought the way crime typically is—after the fact—this country cannot protect its citizens from future terrorist events solely in this way. Instead, measures must be taken to actually stop terrorists before they can attack. Here, the authors argue that government anti-terrorism policy must pay much more attention to reducing opportunities for terrorist attacks by protecting vulnerable targets, controlling the tools and weapons used by terrorists, and by removing the conditions of everyday life that make these attacks possible. While some of this work is done on an ad hoc basis, there are no recognized methods to guide the work, there is limited experience on which to draw, and the government has no trained professionals to oversee the work. In this book, the authors address these deficiencies, and lay out a systematic approach for reducing opportunities for terrorism. The current "take-them-out mindset" may be the main reason why
