### Moon Phases 2021 - Lunar Calendar for Bangkok, Thailand

Lunar CalendarA lunar calendar is a calendar based on the monthly cycles of the Moon's phases (synodic months), in contrast to solar calendars, whose annual cycles are based only directly on the solar year. The most commonly used calendar, the Gregorian calendar, is a solar calendar system that originally evolved out of a lunar calendar system. A purely lunar calendar is also distinguished from a lunisolar ... Lunar calendar - WikipediaLunar Calendar 2021. The calendar shows the moon phases of a year. The exact dates for the phases are given in Universal Time and therefore can differ by a day at the place where you live. Between new and half, the moon is a crescent, between half and full, it is a gibbous moon. = New moon = Waxing moon, half moon = Full moon = Waning moon ... Lunar Calendar for the Year 2021 - kalender-365.deLunar calendar, any dating system based on a year consisting of synodic months—i.e., complete cycles of phases of the Moon. In every solar year (or year of the seasons), there are about 12.37 synodic months. Therefore, if a lunar-year calendar is to be kept in step with the seasonal year, aLunar calendar | chronology | BritannicaChinese calendar, a lunisolar calendar, is formed on the movement of the moon and the sun. It is also called the Lunar calendar, Yin calendar, Xia calendar or the old Chinese calendar.
