This book examines how style and intersubjective meanings emerge through language use. It is innovative in theoretical scope and empirical focus. It brings together insights from discourse-functional linguistics, stylistics, and conversation analysis to understand how language resources are used to enact stances in intersubjective space. While there are numerous studies devoted to youth language, the focus has been mainly on face-to-face interaction. Other types of youth interaction, particularly in mediated forms, have received little attention. This book draws on data from four different text types - conversation, e-forums, comics, and teen fiction - to highlight the multidirectional nature of style construction. Indonesia provides a rich context for the study of style and intersubjectivity among youth. In constructing style, Indonesian urban youth have been moving away from conventions which emphasized hierarchy and uniformity toward new ways of connecting in intersubjective space. This book analyzes how these new ways are realized in different text types. This book makes a valuable addition to sociolinguistic literature on youth and language and an essential reading for those interested in Austronesian sociolinguistics.

Is Christianity the natural enemy of identitarianism? Has it contributed to the liberalization of our societies and to the mass immigration which is so quickly altering our social make-up and changing the face of our nations? What can Christianity, past or present, offer us at this unprecedented historical moment of political and social change? Catholic and Identitarian seeks to answer these questions from a traditionalist Catholic perspective. Arguing that Christianity, and Catholicism in particular, far from being an enemy to identitarianism, actually forms the necessary underpinning for true European identitarianism, this book demonstrates that the teachings and traditions of the Church have always respected ethnic and national borders and protected the integrity of authentic human roots. At once a vindication of the Church against the misinterpretations and misrepresentations of left and right alike, and a stirring call to defend our European heritage from the forces that would destroy it, Catholic and Identitarian reminds us of the basic truth that "to fight is to love."
