BENJAMIN VALENCIA

Memory, Narrative, Desire Cengage Learning "Plot", writes Peter Brooks, "is so basic to our very experience of reading, and indeed to our articulation of experience in general, that criticism has often passed it over in silence..." (Reading for the Plot, xi). Finding the Plot both explores and helps to redress this critical neglect. The book brings together an international group of scholars to address the nature, effects and specific pleasures of consuming stories. If the

central focus is on France and popular literary fiction, the book's scope – like contemporary fiction itself – observes no national frontiers, and extends across a variety of media. The book addresses both the empirical question of which genres and types of text have been and are most "popular", and the theoretical questions of how plots work, what pleasures they offer to readers, and why it matters that the plot should not be lost. The Excremental Canon of French Literature University of Illinois Press Décryptez Cabot-Caboche de Daniel Pennac avec

l'analyse du PetitLitteraire.fr ! Que faut-il retenir de Cabot-Caboche, le roman émouvant et drôle qui captive la jeunesse ? Algorithmic Geometry
Harvill Press

It would be easy to cheat someone on eBay. However, an essential characteristic of the site prevents this from happening: buyer and seller reviews form what amounts to an "index of reputation." The availability of such an index provides a strong incentive to be an honest trader. Reputation-Based Governance melds concepts from businesses like eBay with politics. Author Lucio Picci uses interdisciplinary tools to argue that the intelligent use of widely available Internet technologies can strengthen reputational mechanisms and significantly improve public governance. Based on this notion, the book proposes a governance model that leans on the concept of reputational incentives while discussing the pivotal role of reputation in politics today. Picci argues that a continuous, distributed process of assessing policy outcomes, enabled by an appropriate information system, would

contribute to a governance model characterized by effectiveness, efficiency, and a minimum amount of rent-seeking activity. Moreover, if citizens were also allowed to express their views on prospective policies, then reputation-based governance would provide a platform on which to develop advanced forms of participative democracy.

Vladimir Nabokov's Lectures on Literature
Duke University Press

From a particularly humiliating accident at scout camp, to the final stages of terminal illness, Daniel Pennac's warm, witty and heart-breaking novel shows the rise and fall of an ordinary man, told through his observations of his own body. It is with damp eyes (not to mention underpants) that our narrator begins his diary, seeking through it to come to terms with the demoralising quirks of his fleshy confines. Through the joys and horrors of puberty to the triumphs of adolescence, we grow to love him through every growth, leak and wound, as he finds himself developing muscles, falling in love, and then leaving school to join the French Resistance. Yet, as

ever, this is only half the story. As years pass and hairs grey, everything he took for granted begins to turn against him. Tackling taboo topics with honesty and charm, Pennac's wit remains sharp even as everything else begins to sag. This is a hugely original story of the most relatable of unlikely love stories: a human, and the body that defines him.

Cosmopolitan, vivacious essays in the tradition of Brodsky's *Watermark* and Benjamin's *The Arcades Project* by a celebrated young Mexican author.
Napoleon and de Gaulle
Susquehanna University Press

Rather than being properties of the individual self, emotions are socially produced and deployed in specific cultural contexts, as this collection documents with unusual richness. All the essays show emotions to be a form of thought and knowledge, and a major component of social life—including in the nineteenth century, which attempted to relegate them to a feminine intimate sphere. The collection ranges across topics such as eighteenth-century sensibility, nineteenth-century

concerns with the transmission of emotions, early twentieth-century cinematic affect, and the contemporary mobilization of political emotions including those regarding nonstate national identities. The complexities and effects of emotions are explored in a variety of forms—political rhetoric, literature, personal letters, medical writing, cinema, graphic art, soap opera, journalism, popular music, digital media—with attention paid to broader European and transatlantic implications.
Chagrin d'école BRILL
Steve Fagin is an artist whose videos incorporate, challenge, and cross over into the realm of literary and cultural studies. *Talkin' with Your Mouth Full* includes not only scripts of Fagin's works but critical responses to—and meditations on—a variety of his influential videos by a distinguished, if intriguingly disparate, group of artists and scholars. Combining elements of criticism with various modes of artistic expression, these responses take the form of reviews, letters, interviews, and in one case an imaginary TV programming schedule. Interspersed with—and

sometimes literally interrupting—the video scripts, these contributions interact with one another on multiple levels and complement Fagin's scripts. Historical, political, and theoretical issues dovetail, ricochet, and interplay in this book, revealing a multiplicity of voices, concerns, and cultural revelations. Unique in its structure and intellectual approach, *Talkin' with Your Mouth Full* will appeal equally to those who have seen Fagin's videos and those who have not. Students of art history and cultural critique, and anyone interested in the ongoing dialogue between artists and theorists, will find particular value in this book. Contributors: Gregg Bordowitz, Constance DeJong, Leslie Dick, Steve Fagin, Barry Gifford, Victoria Gill, Bill Horrigan, Bertha Jottar, Ivone Margulies, Patricia Mellencamp, Margaret Morse, Constance Penley, Vicente L. Rafael, Mark Rappaport, Andrew Ross, Vivian Sobchack, Trinh T. Minh-ha, John Welchman, Peter Wollen

 Around the world, when people think of vacation it's the beach they want--even when long distances must be traversed, the seashore is the place to escape the rigors of modern life. How did this come to be, and what does our ongoing love affair with the beach mean? How do shore vacations differ from

traditional tourism, and what does this tell us about our fears and dreams? In *At the Beach*, Jean-Didier Urbain offers witty and insightful answers to these questions. Urbain traces the transformation of the beach from a place of mythological threats and a demanding workplace fraught with danger to a destination for medical treatment and the pursuit of pleasure. He looks to the emergence of the modern vacation in the nineteenth century, examines representations of beachgoing in literature and the arts, and shows the transgressive side of beach culture--from nudism to hedonism to various "scandals" about costume, behavior, and sexuality that make the beach the site of social spectacle as well as leisure. Urbain's ultimate focus is the paradoxical enterprise of the residential seaside vacationer, who travels in order to stay in one place and who leaves the everyday world behind to reconstruct an idealized version of it at the shore. He argues that unlike tourists, who move from place to place, beach vacationers are not seeking to explore nature, to discover other cultures,

or even to "get away from it all"; rather, they are attempting to re-create their own identities through a simplified community they can no longer find elsewhere. Blending history with social observation, Urbain presents an original, incisive, and entertaining account of this enduring ritual of escape and recreation.

French Twentieth Bibliography Harvill Press

"Anyone who loves to read and wants our young people to develop a similar passion will savor" *Better than Life* "- an enchanting, beautifully written, and wise book."--Regie Routman
 An essential guide to helping children discover the pleasures of reading! In *"Better than Life,"* Daniel Pennac shares the secrets that all book lovers treasure. Delving into his experiences as a parent, a writer and a teacher, he asks, how does the love of reading begin? How is it lost? And how can it be regained? This remarkable book explores simple ways to create a life-long devotion to reading: how reading aloud can ensure that a love of books begins why it is important that children develop a private

relationship with bookwhat "The Reader's Bill of Rights" can do to guarantee children value reading This book reads like a novel with gripping anecdotes from literature and fresh insights into creating and nurturing enthusiastic readers.

The Dictator and the Hammock Editions Gallimard

All the novelists studied were published initially in popular collections, such as the Serie noire, but they have been chosen for the innovation of their work and the exciting ways in which they resist tired conventions and offer new ways of representing social reality." "One of the first English-language studies of this popular genre, *The Roman Noir in Post-War French Culture* offers much more than close readings of these fascinating texts; it demonstrates the important contribution of the roman noir to the cultural histories of post-war France."--Jacket.

Kamo's Escape BRILL
Literary studies are in danger of being left behind in the twenty-first century. Print culture risks becoming a thing of the past in the multimedia age; meanwhile, human life and society are

undergoing rapid changes as a result of new technologies, the intensification of global capitalism, and the effects of human actions on the environment. In this transformed world, William Paulson argues for a radical renewal of literary studies. Modern literary culture has defined itself, in opposition to science, politics, and commerce, as a protected sphere of democratic and free inquiry, but today that autonomy may lead to isolation from the real dynamics of cultural and global change. Paulson clearly and convincingly demonstrates the need for literary studies to embrace both the unfashionable literary past and the technologically saturated future, and to train not a countersociety of cultural critics but citizens of the world who can communicate the irreducible strangeness and multiplicity of literature to a society on hyperdrive. His series of concrete proposals, ranging from a closer connection between literature and everyday language to the restructuring of undergraduate and graduate education, will

immeasurably enrich current discussions of the humanities' role in the life of the world.

My Stomaco Hurts! Coffee House Press

Exploring why there is so much fecal matter in literary works that matter *Cacophonies* takes fecal matter and its place in literature seriously. Readers and critics have too long overlooked excrement's vital role in the twentieth- and twenty-first-century French canon. In a stark challenge to the tendency to view this literature through sanitizing abstractions, Annabel L. Kim undertakes close readings of key authors to argue for feces as a figure of radical equality, both a literary object and a reflection on literature itself, without which literary studies is impoverished and sterile. Following the fecal through line in works by Céline, Beckett, Genet, Sartre, Duras, and Gary and the contemporary authors Anne Garréta and Daniel Pennac, Kim shows that shit, far from vanishing from the canon after the early modern period, remains present in the modern and contemporary French literature that follows. She argues that all the shit in

the canon expresses a call to democratize literature, making literature for all, just as shit is for (or of) all. She attends to its presence in this prized element of French identity, treating it as a continually uttered desire to manifest the universality France aspires to—as encapsulated by the slogan *Liberté, égalité, fraternité*—but fails to realize. In shit there is a concrete universalism that traverses bodies with disregard for embodied differences. Cacophonies reminds us that literature, and the ideas to be found therein, cannot be separated from the corporeal envelopes that create and receive them. In so doing, it reveals the aesthetic, political, and ethical potential of shit and its capacity to transform literature and life.

The Roman Noir in Post-war French Culture

Cambridge University Press

One of France's most famous historians compares two exemplars of political and military leadership to make the unfashionable case that individuals, for better and worse, matter in history. Historians have taught us that the past is not just a

tale of heroes and wars. The anonymous millions matter and are active agents of change. But in democratizing history, we have lost track of the outsized role that individual will and charisma can play in shaping the world, especially in moments of extreme tumult. Patrice Gueniffey provides a compelling reminder in this powerful dual biography of two transformative leaders, Napoleon Bonaparte and Charles de Gaulle. Both became national figures at times of crisis and war. They were hailed as saviors and were eager to embrace the label. They were also animated by quests for personal and national greatness, by the desire to raise France above itself and lead it on a mission to enlighten the world. Both united an embattled nation, returned it to dignity, and left a permanent political legacy—in Napoleon's case, a form of administration and a body of civil law; in de Gaulle's case, new political institutions. Gueniffey compares Napoleon's and de Gaulle's journeys to power; their methods; their ideas and writings, notably about war; and their postmortem

reputations. He also contrasts their weaknesses: Napoleon's limitless ambitions and appetite for war and de Gaulle's capacity for cruelty, manifested most clearly in Algeria. They were men of genuine talent and achievement, with flaws almost as pronounced as their strengths. As many nations, not least France, struggle to find their soul in a rapidly changing world, Gueniffey shows us what a difference an extraordinary leader can make.

Better Than Life

Vanderbilt University Press

Benjamin Malaussène's young sister Thérèse marries Count Marie-Colbert de Roberval and the happy couple fly off to Zurich for their wedding night. Two days later, a tight-lipped Thérèse is back in Belleville. Her husband is also in Paris, found dead at the foot of his stairwell, and a bag full of dollars has gone walkabout. Added to which, Thérèse's fairground caravan, in which she practiced her trade of astrologer, has been torched. Benjamin, professional scapegoat, packs his bags and waits for the police to pull him in on suspicion but it is Th

rise they arrest. The family and their Apache friends slip smartly into gear to scour Paris in search of bona fide culprits and get their beloved sister out of gaol. In Pennac's pacy and over-the-top crime caper, he brings to life again the extended Malaussène family and the Parisian suburb of Belleville that is their home territory.

The Rights of the Reader Cambridge University Press

This witty, refreshing treatise from a celebrated author and seasoned teacher is a passionate defense of reading — just for the joy of it. First published in 1992 and even more relevant now, Daniel Pennac's quirky ode to reading has sold more than a million copies in his native France. Drawing on his experiences as a child, a parent, and an inner-city teacher in Paris, the author reflects on the power of story and reminds us of our right to read anything, anywhere, anytime, so long as we are enjoying ourselves. In a new translation with a foreword and illustrations by Quentin Blake, here is a guide to reading unlike any other: fresh, sympathetic, and never didactic, it is a work of

literature in its own right. *Our Magnificent Bastard Tongue* Greenwood Publishing Group Elia, a five-year-old boy living in Milan, can't wait to turn six so he can "graduate" from scuola materna (combined preschool/kindergarten) and start elementary school. Filled with enthusiasm when he enters first grade, he quickly becomes disillusioned. While the scuola materna teachers were nurturing, the first grade teachers are rigid and strict-concerned above all with discipline and order. Elia soon begins to hate school and his self-esteem collapses. Halfway into the school year, his life suddenly changes when his father accepts a job in Germany and Elia transfers to an international school, which uses an utterly different approach. After the change, Elia becomes happy, enthusiastic, and eager to learn.

Pensée de Marivaux

John Benjamins Publishing Company Envisager la pensée d'un écrivain que la tradition ne tient pas pour un penseur - et dont les textes n'épargnent pas la prétention philosophique - , peut paraître paradoxal, voire naïf. Mais ce serait

oublier que la réflexion prend bien des chemins et que la littérature est un espace de pensée. Il faudrait, par conséquent, plutôt s'étonner du fait qu'il puisse sembler anormal d'interroger la pensée d'un écrivain. Mais le terrain est, il est vrai, miné... Mieux vaut repartir sur des bases modestes et claires, d'après quelques constats. Ainsi, concernant Marivaux, est-il frappant de relever l'importance que tiennent les réflexions dans ses textes. Rien de plus légitime dès lors que de se demander si ces pensées, apparemment décousues, n'entrent pas dans une conception ordonnée du réel et de « l'humanité ». Il ne s'agit pas pour autant d'en revenir à une position simpliste consistant à attribuer à chaque auteur une conception du monde à partir d'un relevé de ses affirmations explicites ou implicites. Plutôt que de se fourvoyer dans un exposé artificiellement complet de la pensée de Marivaux, il paraît plus intéressant de faire quelques pas en direction de ce qui est pensé dans les textes de Marivaux. *Sidewalks* Cornell University Press Examines Flaubert's
