They reinforce the material from the book and will help develop your listening and pronunciation skills. *Scheisse!* Routledge

Taming the Vernacular: From Dialect to Written Standard Language examines the differences between 'standard' and 'nonstandard' varieties of several different languages. Not only are some of the best-known languages of Europe represented here, but also some that have been less well-researched in the past. The chapters address the syntax of Dutch, English, French, Finnish, Galician, German and Spanish. For these languages, and many others, it is the standard varieties on which the most extensive syntactic

research has been carried out, with the result that very little is known about the syntax of their dialects or the spoken colloquial varieties. The editors of this volume seek to redress the balance by taking a cross-linguistic perspective on the historical development of the standardised varieties. This allows them to identify some common characteristics of spoken language. It also helps the reader to understand the kinds of filtering processes that are involved in standardization, which result in the syntax of spoken colloquial language being different from the syntax of the standard varieties. *Taming the Vernacular: From Dialect to Written Standard Language* is suitable for undergraduate and postgraduate students of Linguistics, particularly those taking courses in sociolinguistics, dialectology, and historical linguistics. The focus on a variety of languages also makes this text suitable for students studying courses which cover the linguistic aspects of European languages. *From dialect to written*

standard language Routledge

Routledge

Provides information on verbal and compound nouns, separable and inseparable verbs, and pronunciation

Colloquial Persian (eBook And MP3 Pack) Routledge

Learn the slang words, modern phrases, and curses they definitely never taught you in German class with this super-handly and hilariously improper English-German phrasebook. You already know enough German to get by, but you want to be able to tell those inside jokes, greet your friends in a laid-back manner, and casually pick someone up at a bar.

From “what’s up?” to “Wanna go home with me?” Dirty German will teach you how to speak like you’re a regular on the streets of Berlin. But you’ll also discover material that goes beyond a traditional phrasebook, including: Hilarious insults Provocative facts Explicit swear words Themed German cocktails And more! Next time you’re traveling to Germany, pick up this book, drop the textbook formality, and get dirty!

The Complete Course for Beginners Simon and Schuster

The perfect gag gift, this humorous book helps readers navigate the world of real Low German. Scheisse! introduces readers to the fine art of cursing and basic slang to spice up their German speech. If you think you have a fairly good command of German, think again. For it’s a sure bet that Frau Schultz never taught you those nasty little guttural curses and humiliating invectives

so expressive of real low German speech. But relax—here at last is the one book that can introduce you to the very worst beer-hall German. *Scheisse!* is an indispensable guide to off-color German colloquialisms and profanities—lascivious bedroom slang and boozy insults, jeering scatological put-downs and scurrilous ridicule. This hilarious illustrated cornucopia of creative expletives, guaranteed to vex, taunt, aggravate, and provoke as only overwrought low German can, will help you master the fine art of German verbal abuse—with triumphant one-upmanship.

A Primer of Colloquial German, Based on the Principles of Gouin's Series Method, Combining the Practical Use of the Living Language with a

Systematic Study of the Vocabulary, Idioms and Grammar Psychology Press

The author addresses a number of issues in German and general phonology, using a specific problem in German phonology (the ach/ich alternation) as a springboard. These issues include especially the naturalness, or lack thereof, of the prescriptive standard in German, and the importance of colloquial pronunciations, as well as historical and dialect evidence, for phonological analyses of the [standard] language.

Other important topics include the phonetic and phonological status of German /r/, the phonetic and phonological representation of palatals, the status of loanwords in phonological description, and, especially as regards the latter, the usefulness of Optimality Theory in capturing phonological facts. The book addresses itself to scholars from the fields of German and Germanic linguistics, as well as those concerned more generally with theoretical phonology (whether Lexical or Optimal). It may even appeal to the orthoëpists and lexicographers of

modern German.
