Next Generation Science Standards identifies the science all K-12 students should know. These new standards are based on the National Research Council's A Framework for K-12 Science Education. The National Research Council, the National

Science Teachers Association, the American Association for the Advancement of Science, and Achieve have partnered to create standards through a collaborative state-led process. The standards are rich in content and practice and arranged in a coherent manner across disciplines and grades to provide all students an internationally benchmarked science education. The print version of Next Generation Science Standards complements the nextgenscience.org website and: Provides an authoritative offline reference to the standards when creating lesson plans Arranged by grade level and by core discipline, making

information quick and easy to find Printed in full color with a lay-flat spiral binding Allows for bookmarking, highlighting, and annotating

Depth matters! Can a mere fifteen words turn today's youth into the innovative, ambitious thinkers we need? Yes, contend Jim Burke and Barry Gilmore, because these are the moves that make the mind work and students must learn if they're to achieve academically. With *Academic Moves*, Jim and Barry distill each of these 15 powerhouse processes into a potent concision that nevertheless spans core subject areas: Before, during, and after sections offer essential questions, lesson ideas, and activities. Student samples illustrate what to look for and the process for getting there. Culminating tasks include producing an analytic

essay, argument, and more. Reproducible rubrics assist with assessment.
