The Visio Pauli and the Gnostic Apocalypse of Paul is the first modern collection of studies on the most important aspects of the Visio Pauli, the most popular early

Christian apocalypse in the Middle Ages. The volume starts with a short study of the textual traditions of the Visio Pauli, its Jewish and early Christian traditions as well as its influence on later literature, such as Dante. This is followed by studies of the Prologue, the four rivers of Eden, the place of the Ocean, the relation between body and soul, the image of hell and its punishments, and the connection with fantastic literature. Finally, a codicological, comparative, and textual re-evaluation of the Coptic translation attempts to correct earlier errors and to rehabilitate the value and interest of this long neglected version of the Visio Pauli.

The book is concluded with a study of the earthly tribunal in the fourth heaven of the Gnostic Apocalypse of Paul. As has become customary, the volume is rounded off by an extensive bibliography of the Visio Pauli and the Gnostic Apocalypse of Paul and a detailed index.

For readers who love Bolaño, a new voice of Latin American fiction, winner of the Mario Vargas Llosa Prize. Recurring blackouts envelop Caracas in an inescapable darkness that makes nightmares come true. Real and fictional characters, most of them are writers, exchange the role of narrator in this polyphonic novel. They recount contradictory versions of the plot, a series of femicides that began with the energy crisis. The central narrator is a psychiatrist who

manipulates the accounts of his friend, an author writing a book titled *The Night*; and his patient, an advertising executive obsessed with understanding the world through word puzzles. The author shifts between crime fiction and metafiction, cautioning readers that the events retold are both true and manipulated. This is a political novel about the financial crisis and socio-political division in Venezuela from 2008 to 2010. The title of the book, originally also in English, is a gesture towards Chavism's failure to resist US influence. Yet, the form is unapologetically literary, a reflection on the depiction and distortion of reality through storytelling. Blanco Calderón said about the potential of language, "I am convinced that all the evil in the world begins in them: in words" (Caracas, 2010).

Throughout the history of cinema, horror has proven to be a genre of consistent popularity, which adapts to different cultural contexts while retaining a recognizable core. *Horror Film: A Critical Introduction*, the newest in Bloomsbury's Film Genre series, balances the discussions of horror's history, theory, and aesthetics as no introductory book ever has. Featuring studies of films both obscure and famous, *Horror Film* is international in its scope and chronicles horror from its silent roots until today. As a straightforward and convenient critical introduction to the history and key academic approaches, this book is accessible to the beginner but still of interest to the expert.

Ostensibly written by an English knight, the Travels purport to relate his experiences in the Holy Land, Egypt, India and China. Mandeville claims to have served in the Great Khan's army, and to have travelled in 'the lands beyond' - countries populated by dog-headed men, cannibals, Amazons and Pygmies. Although Marco Polo's slightly earlier narrative ultimately proved more factually accurate, Mandeville's was widely known, used by Columbus, Leonardo da Vinci and Martin Frobisher, and inspiring writers as diverse as Swift, Defoe and Coleridge. This intriguing blend of fact, exaggeration and absurdity offers both fascinating insight into and subtle criticism of fourteenth-century conceptions of the world.

This book is not for beginners. It is for anyone learning Spanish or who

wants to improve their Spanish language skills. The idea is simple: lots of bilingual texts (Spanish-English) to practice reading comprehension, plus exercises to translate single sentences from English into Spanish. Everything is in Spanish and English, so exercises are useful to readers of different levels of ability in Spanish. However, the book is aimed primarily at high school and college students of Spanish, or anyone else who has already acquired a working knowledge of the language. There are five units in the book, each one offering a mixture of single sentences and longer texts. Every example of Spanish is followed (usually on the next page) by a translation into English. This allows readers to 'click' through as much material as they want, even if it's just a sentence of two at a time. This book is not a textbook and contains no grammar exercises! It is an additional resource to help learners of Spanish improve their language skills. However, the texts themselves contain a wide variety of grammatical structures, tenses, and set expressions in Spanish.

The vocabulary is also rich and varied. But don't worry if you don't understand everything--a full translation into English is just one click away! A note on the translations: we have

tried to provide good, straightforward translations of all material in this book. But remember that there are potentially many ways of translating any sentence.
